

Introducing e-Z RESULTS

Patriot Environmental Laboratory, Inc. (Patriot) is pleased to announce the addition of our new e-Z Results laboratory data management system. This web-based system is designed to provide you with real time access to your analytical results, which ultimately saves time and money.

Patriot understands the necessity of delivering analytical results in a timely manner. Though our laboratory has an excellent record of providing results within client-specified turnaround times, our e-Z Results system allows you to view and print your analytical data and chain of custody in real time, virtually as we generate the reports.

The final report, which is an official document and bears the signatures of approved signatories, is printed on letterhead and uploaded to our Internet website. The report is then available to our subscribers. Clients are provided with a client identification number and are asked to select a private personal password that allows access to their project information, reports and invoices.

BENEFITS OF e-Z RESULTS

- ▶ This system is a free service available to all laboratory clients
- ▶ Final report and chain of custody immediately available without relying solely on a mail service turnaround time
- ▶ Official signatory copy on our letterhead
- ▶ Eliminates poor quality copies and lost pages from faxes
- ▶ Access to your database of archived reports

Please contact us today at (888) 743-0998 to enroll in the e-Z Results program. We also encourage you to visit our website at www.patriotlab.com for an online demonstration.
